

**Court Boice, Commissioner**

---

94235 Moore Street, Ste. 122

Gold Beach, OR 97444

Ph.: (541) 247.3229

**March 1, 2018 (Updated, May 15, 2018)**

## **Curry Recovery & Recover Oregon**

**Purpose ... Qualifying Curry County for Federal Disaster Declaration Relief – ‘Early Draft’**

**To coordinate Curry Citizens, other Oregon Counties and Government at all levels in the goal of seeing that Curry County receives federal relief similar to that coming to Puerto Rico, Florida, Texas and California -- the 100 billion appropriated by the President and U.S. Congress.**

**"Curry County's story must be told -- it's not just the Chetco Bar Fire"...**

**We're asking State and Federal Public Officials to contemplate and calculate the additional issues negatively affecting our County and our Economic health. We are unfortunately considered the Number (1) economically distressed County of the 36 in Oregon.**

- \* Future Log supply shortages for our local Plywood and Lumber Mills**
- \* Sudden Oak Death (S.O.D.) – trying to keep this terrible pathogen isolated to Curry County.**
- \* Gorse, Himalaya Blackberries, Pampas Grass and many other Invasive Species**
- \* Sport and Commercial Fishing -- severe restrictions**
- \* Scenic Hwy 101 - Oregon Coast Highway is in terrible condition. (plus blocked ocean views by growing Spruce and other evergreens)**
- \* Distractions and lack of funding from pursuing bio-mass projects**
- \* Health hazards and bad Tourism public relations resulting from Mega-Fire summer smoke**
- \* Rising crime resulting from less prevention and poor economic conditions. Related property value drops**
- \* Severely reduced O&C and USFS Timber Receipts to Curry County**

\* Harbor Sink hole, 2015 and Harbor Tsunami, 2011

\* Port of Brookings-Harbor debts and difficulties (Related too, to the Tsunami and Sinkhole)

\* Port Orford – Langlois School District is the 8<sup>th</sup> most impoverished in the Nation.

\* Chetco Bar Fire Timber Value lost – (Very Rough Figures) -- 150 marketable trees per acre X \$ 150 per tree value X 190,000 acres = 42 mm. Add the loss of wildlife habitat, damage to 80% of the Brookings Harbor Water shed and many related and residual issues.

\* Reduced Salmon Hatchery Counts -- Lost Creek Mitigation Shortfalls ... Construction back in 1973 required Fish full spawning beds -- Chinook salmon habitat. Over the years inundated by Lost Creek Lake –The Corp of Engineer is not complying with Federal Law – therefore our Spring Salmon Counts are dramatically reduced since the early 80's.

\* Public Land Surveyor Restoration, Chetco Bar Fire – Burned Survey Monuments and Accessories, destroyed by the fire. Very difficult and expensive work for recovery -- severely damaged land and terrain.

\* Curry Emergency Communication Towers (5) – Old, outdated, failing and somewhere between 2-6 million dollars for critical repairs.

\* Marijuana Industrial massive growing -- Related cultural and public safety issues. Oregon is the No. 1 exporting region in the World. Curry is marching toward being the No. 1 County exporting County within that geographical area.

\* Little in the way of neither funds nor resources available for proper Rehabilitation and Reforestation - - 191,000 Acres loss due to the Chetco Bar Fire.

Certainly not a conclusive list, but is growing -- many other detrimental and complex Curry County and Brookings overall issues!

**Court Boice, Curry County Commissioner**
